

Here in Omaha, our young family has found the K-LOVE station at translator station signal 88.1 to be a tremendous lift to our day - every day. We value the positive Christian programming as it not only offers encouragement to take life issues head on, but also helps us keep life in the proper perspective. We would prefer not see the Low Power FM (LPFM) used in place of the translator services currently utilized with the K-LOVE family of networks. We share this view with many of our friends who also value K-LOVE for many of the same reasons. Thanks for allowing me to voice my concern.
